DATE

10th - 12th  
September 19

LOCATION

London Hilton Heathrow  
Terminal 4

The Second

# The AGS Global Networking Summit

Will be held from the 10th – 12th September, 2019 at the Hilton London Heathrow Airport Hotel, Terminal 4 and follows on from the successful inaugural event in September 2018. The current industry norm is to dedicate only a small part of the event for 1-2-1 meetings but the AGS Global Networking Summit is different, as the entire event is about networking, meeting with existing and new airlines to discuss important issues related to the operations of servicing the airline and developing new business opportunities. Airline professionals are seeking productive business discussions in an environment which is currently not on offer, but the AGS Global Networking Summit offers thorough pre-arranged appointments, a platform for contracts to be considered in complete privacy.

We manage an ideal setting for members of the ground handling/airline sector to explore the marketplace for future partnerships and to meet with new vendors. We ensure that this is the optimum use of your management time while you are away from the office.

The AGS Global Networking Summit is targeted at senior decision-makers responsible for the procurement and selling of global ground services including refuelling, passenger handling, baggage handling, aircraft service/line maintenance, ramp handling, catering and lounge services.

## About The Event

# About The Global Networking Summit

- International event for ground service providers, airlines and airports.
- Held in London every year.
- Sponsored by the world's leading ground service providers and support companies.
- Key managers from the world's most dynamic and fast-expanding airlines, who are responsible for the procurement of international ground services, invited to attend.
- Private meeting rooms available.
- Dedicated airline hall.
- All meetings can be arranged on your behalf, you only have to specify which existing or potential airlines you wish to meet.
- 1-2-1 meeting system.

## Option 1
